ENTERED JUNE 9, 1903, AT SAN FRANCISCO, CALIF., AS SECOND-CLASS MATTER

Protect the Infant Industry BY GUARDING AGAINST IMPURE MILK

The appalling infant mortality of the summer months is largely due to the dangerous quality of milk furnished most communities and particularly the larger cities. A Baltimore hospital recently examined the milk supplied to it and found an average bacterial content of over four million to the c. c. The New York Board of Health found many samples that ran over ten million; these are but instances.

Most peddled milk is absolutely dangerous during the summer months and is a leading cause of the high mortality in children. In many cities there are three deaths from Cholera-Infantum to one of Tuberculosis.

HIGHLAND BRAND EVAPORATED CREAM

Is absolutely pure, germ-free, always fresh. It is the simplest, yet the most complete substitute food for infants and invalids. Always ready. Just dilute with water q. s. and give to baby. Trial quantity free to physicians.

ESTABLISHED BY J. W. ROBERTSON, M. D.

THE SANITARIUM FOR NERVOUS AND GENERAL DISEASES is beautifully situated near the town of Livermore, 30 miles from San Francisco, and is surrounded by handsome grounds. It is isolated, the rooms are large and well furnished and the Sanitarium is specially adapted for the treatment of Neurasthenia, Nervous Dyspepsia, the Alcohol Habit and Morphomania. One building is especially adapted for Massage, Electricity, Hydrotherapy and Sun Bath. Terms \$20 to \$35 per week.

THE DEPARTMENT FOR THE TREATMENT OF MENTAL DISEASES is entirely separated from the Sanitarium and is located in grounds absolutely private. The central building is surrounded by small cottages for the better segregation of patients. The best-trained nurses are employed and all modern appliances for the proper care of the insane have been provided. Absolutely no restraint nor enclosures for patients. Terms \$25 to \$50 per week, depending upon the number of nurses required.

Address J. W. ROBERTSON, M. D., BOX 75, LIVERMORE, CAL.
